*1.JAMA(Japan Automobile Manufacturers Association Inc.) report basis (CBU)

*2.Local line-off basis

< December, 2010 >

- The total domestic production in December decreased for the third consecutive month year-on-year, due to the end of government "eco-car" support under subsidy system. The total global production for December increased fourteenth consecutive month year-on-year, due to the increased production for overseas markets, which set an all-time December record.

< CY 2010 >

- The domestic production for the passenger cars, the overseas production and the total global production for the period January through December 2010 set an all-time records, due to the increased production of Legacy and Forester.

● Sales in Japan
